

Facial oil recipes for dry skin

Four simple blends. Each recipe makes 100 g. All ingredients are weighed.

DRY SKIN #1

Light Everyday Care

For dry patches when you want a lighter finish, after shaving or beneath make-up.

Hazelnut Oil: 39.75% / 39.75 g

Apricot Kernel Oil: 25% / 25 g

Oat Oil: 20% / 20 g

Jojoba: 6% / 6 g

Squalane: 9% / 9 g

Rosemary Antioxidant: 0.25% / 0.25 g

Total: 100% / 100 g

DRY SKIN #2

Fuller Care for Persistent Dryness

For cheeks that feel tight again between applications and need fuller conditioning.

Camelina Oil: 30% / 30 g

Borage Oil: 10% / 10 g

Avocado Oil: 15% / 15 g

Jojoba: 24.75% / 24.75 g

Rice Bran Oil: 20% / 20 g

Rosemary Antioxidant: 0.25% / 0.25 g

Total: 100% / 100 g

DRY SKIN #3

Simple Care for Flaky Skin

For dry, flaky, easily uncomfortable skin. Three oils with a soft, velvety finish.

Thistle Oil: 39.75% / 39.75 g

Evening Primrose Oil: 20% / 20 g

Oat Oil: 40% / 40 g

Rosemary Antioxidant: 0.25% / 0.25 g

Total: 100% / 100 g

DRY SKIN #4

Silky, Velvety Comfort

For rough patches and reduced suppleness when you enjoy some lasting softness.

Tigernut Oil: 34.75% / 34.75 g

Meadowfoam Seed Oil: 26% / 26 g

Oat Oil: 21% / 21 g

Rosehip Seed Oil: 18% / 18 g

Rosemary Antioxidant: 0.25% / 0.25 g

Total: 100% / 100 g

Make, use & store

Make: Use clean, completely dry equipment and scales capable of accurately weighing 0.25 g. Weigh the oils, add the antioxidant and stir thoroughly. Bottle and label with ingredients, blend number and date. No heating is needed.

Use: Apply sparingly to clean, slightly damp skin or over moisturiser. Let it settle before make-up. Avoid shaving cuts and broken skin. Try a small area first; stop if irritation occurs.

Store: Keep tightly closed, cool and away from direct sunlight. Keep water out. Freshness depends on the starting oils and storage; discard if the smell becomes stale or rancid.

Antioxidant: The 0.25% refers to the specific rosemary antioxidant extract used in these recipes, not Rosemary Essential Oil. It slows oxidation; it is not an antimicrobial preservative. Do not add watery ingredients.
